

SHARDALE GROUP

NON-RESIDENTIAL SUBSTANCE MISUSE TREATMENT PROGRAMME

Are you experiencing problematic substance misuse? Maybe you are considering undertaking residential rehabilitation treatment but your personal circumstances are preventing you, for example: childcare or animal responsibilities; housing or tenancy constraints; employment issues; ongoing family and financial commitments. Shardale now offers another solution!

Shardale's non-residential treatment programme will enable you to undertake a structured and intensive recovery programme equivalent in its content to Shardale's successful residential treatment programmes.

Depending on your circumstances, referrals to the programme can be initiated via the community substance misuse treatment service in your area, by your social worker, probation officer, or alternatively you can contact the Shardale Admissions Team if you need further advice.

SHARDALE GROUP – SUPPORTING BEST RECOVERY OUTCOMES

Our Admissions Team can normally undertake an assessment within two working days from initial contact. Applicants in a position to self-fund can access the programme directly – information relating to current tariffs can be obtained by contacting our Admissions Team.

Attendance times are 10.00am to 3.00pm, Monday to Friday. Participants have their lunch provided as well as 50% of their weekly rail or bus travel passes refunded (refund applicable only to residents of Lancashire, Blackburn with Darwen, and Blackpool).
